

Quality & Environmental Policy

PageSet Digital Print & Pre-press is Australia's leading independent supplier of computer to plate, digital print, large format digital print, design and repro to the printing industry. The aim of PageSet is to consistently provide the highest level of quality products and service to its clients which is expected in today's marketplace.

The management and staff are committed to maintaining PageSet's reputation as a leader in the industry. As an initiative to maintain the highest level of quality while at the same time being environmentally responsible in everything we do, PageSet have gained certification to the international standard for quality ISO9001 and the international standard for environmental management ISO14001. Adherence to the requirements of these standards assists in maintaining the framework for establishing and reviewing quality objectives and ensuring we maintain our credentials through setting and reviewing our environmental objectives and targets.

By implementing an integrated management system that complies with the requirements of the international standards, PageSet has embarked on a program of continual improvement of the integrated management system which includes our environmental controls to reduce and prevent pollution, ensure we can offer the best products, on-time, at a competitive level and being totally compliant to the legislative requirements that being a certified environmental business demands.

PageSet will promote the philosophy of the best quality and continual improvement to its suppliers and subcontractors to ensure the level of quality and service exists at the start.
